Engineering and Science Faculty Scholar 2016.

The Vertical Project 2015: Awarded 1st Place.

Received the bronze Gaisce Award 2016.

Full driving licence.

WORK EXPERIENCE

March 2018 - February 2019: The Wedding Experience - Designer

Working closely with 'Occasions' event management and one other designer, we created a personal and engaging wedding fair. As a designer, my role was to create unique exhibition spaces, space plan, meet the client's needs and work to various deadlines until completion. This experience has opened my eyes to more temporary designs and forced me to work within smaller budgets, vital for some projects I may work on following this role.

May - August 2018: Reddy Architecture and Urbanism - Interior Intern

I developed my design skillset while working on large scale commercial and hospitality interiors in an interdisciplinary work environment. I had various responsibilities on different projects including furniture fittings and equipment schedules, editing AutoCAD drawings, furniture detailing, design input, client presentations and room layout sheets on Revit. My time in this position has made me confident in working alongside a hardworking, creative team and engaging in more professional practice activities in future.

SKILLS & PERSONAL QUALITIES

Computer Software

AutoCAD		Sketchup	
Photoshop		Revit	
MS Office		V-Ray	

Completed Microsoft Office Specialist Modules; Word 2010, PowerPoint 2010, Outlook 2010, Excel 2010.

Creativity

A high level of sketching and model making skills for both design development and final presentation work. Open to new ideas and experimentation during this process to achieve the best result.

Interpersonal

Effective communicator and team player. Member of Student Council 2012-2015. Member of the Architectural Society, CIT 2015-present. CIT Good Start Ambassador 2016. Meeting of Design Students (MEDS) Participant 2017 and 2018.

Academic

Knowledge of building regulations, sustainable design, structures, design detailing, schedules, materials, manufacturers and suppliers.
